ROCKS NEWS

We enjoyed the day so very much at Evergreen Baptist Church Sunday. We appreciate the welcome with which we and all other neighboring brethren were received. We delighted to see the progress that has been made at this church. May our God ever hold her up in the future as in the past.

Rev. William Warren preached at Rocks Church Sunday night. Our hearts were made to rejoice with having our old pastor back with us again.

Mrs. Anderson is still confined to her room.

Mr. Tom Green is still unable to be at work.

Mrs. D. R. Inge visited her brothers, P. O. and Wilson Paulett, Sunday evening.

Miss Bradley Cawthorn spent the week-end with Laura Inge.

Miss Rachel Inge entertained a number of her little friends Saturday night playing games, etc.

Compliments On Prospect People

[By Maggie M. Goodwin]

Mr. Ferguson, who has been so faithful and true.

Has decided to live up to this job.

So he's now on the list of retirements.

The young man in office who is filling his position.

Is well aware of his high occupation.

He's never been known to desert any job.

So he's capable of filling the situation.

God bless the mail carriers, who deliver the mail so better.

For their lives are exposed in the worst of winter weather.

May the Government be their safeguard day by day.

And when across assemblies again, increase their pay.

Mr. Hubbard is prepared to lay his away.

For the coming of that grand and glorious day.

When our Lord shall descend from the other shore.

To take us where our troubles will try us no more.

Mr. A. O. Allen has goods of refinement.

And he is at all times well-kept in the line of his work.

To accommodate people and they feel complimented.

To purchase their goods at his store.

There's a fine hotel too, Prospect border.

Where refreshments are served in the highest of order.

Who-so-ever to that grand Hotel ascend.

Get the full value of the money they spend.

Both doctors who reside at Prospect border.

They are friends of the sick, most willing and kind.

It makes no difference how difficult their case.

They light in their fine cars and proceed in haste.

Mr. W. O. Chick and brother you know.

Carry a beautiful supply in their fine store.

People seem ever anxious over to their store.

They are shown so much courtesy there you know.

The Methodist preacher, with other ministers rated.

Is called by all and much appreciated.

May his comforting words extend to all his aid.

Till he crosses over the river to rest in the shade.

Mr. Tweedy and his helpmate, Mr. Straw, at the station.

Have fine methods of business and fine regulations.

Conductors couldn't proceed with their jobs you know.

If not informed the correct time their whistles to blow.

The firm of the Taylor Co. on the opposite street.

Are intelligent, fine people

Who-so-ever to that grand Hotel ascend.

Get the full value of the money they spend.

Both doctors who reside at Prospect border.

They are friends of the sick, most willing and kind.

It makes no difference how difficult their case.

They light in their fine cars and proceed in haste.

Mr. W. O. Chick and brother you know.

They are friends of the sick, most willing and kind.

It makes no difference how difficult their case.

They light in their fine cars and proceed in haste.

Mr. W. O. Chick and brother you know.

Carry a beautiful supply in their fine store.

You never can't meet, store any day.

That you are not shown hospitality and made welcome to stay.

Mr. Lewis, our Attorney's office, is next door below.

We could never advance in business without his knowledge.

He is willing at all times when at home to be consulted.

To advise the best course of law to proceed.

Mr. Burnett's store is the last on the street.

Both he and his wife are most pleasant to meet.

All are fine citizens here on Prospect place.

None occur to be what you'd call two-faced.

We have an elegant store that is nearer our door.

The Five Forks store that we patronize you know.

The quality of goods there is so finely selected.

That what you purchase there is always better than expected.

Cistern Is Dried Up

by Bolt of Lightning

Indianapolis, Ind.—A flash of lightning dry up a cistern containing two barrels of water.

Local weather bureau officials said this morning that the drought in the area is now a fact.

George L. Hise stated that his cistern and found that it was dry, although a test showed there were no leaks in it.

Lighting a few weeks ago struck the house and cistern and that was a blinding flash, the whole ball of fire.

Weather bureau officials said that cases of tornadoes sucking up open wells are on record, but that they never heard of lightning evaporating a cistern.

Big Porcelain Memorial Dedicated in Germany

Meissen, Germany.—The world's greatest porcelain monument, which has just been dedicated in the seven hundred-year-old Nicola church in this city, where white porcelain was invented.

The walls of the church are covered with 1,500 porcelain tiles, each of which is a masterpiece of the art of Meissen.

These tiles, which were made during the war, are a tribute to the memory of the soldiers who died for their country.

They are made of the same porcelain as the tiles which were used in the church before the war.

They are a beautiful and lasting memorial to the soldiers who died for their country.

They are a beautiful and lasting memorial to the soldiers who died for their country.

SOL FAILS TO MAKE GOOD AT FORECASTS

Synoptic Phenomena Are Not Yet Explained.

Washington, Oct. 3.—The sol recently staged his big parade of planets and fancy synoptic, but has not yet been able to establish himself as a reliable herald of mundane weather, in the opinion of official forecasters here.

The period when the sun exhibits the maximum number of spots, recurring at intervals of approximately 11 years, is now passing. Although the synoptic demonstrations in recent months have engrossed scientists and public alike in all parts of the world, the United States weather bureau has no more dependable evidence that synoptic action is a reliable basis for weather forecasting, as it has been alleged from time immemorial.

This bureau has given careful attention to studies of solar phenomena, but does not know of any study that has established a definite relation between weather conditions and sunspots.

Dr. Charles F. Marvin, chief of the bureau, said that the sun's activity has been too erratic to be a reliable basis for weather forecasting.

He said that the sun's activity has been too erratic to be a reliable basis for weather forecasting.

He said that the sun's activity has been too erratic to be a reliable basis for weather forecasting.

He said that the sun's activity has been too erratic to be a reliable basis for weather forecasting.

He said that the sun's activity has been too erratic to be a reliable basis for weather forecasting.

He said that the sun's activity has been too erratic to be a reliable basis for weather forecasting.
